*MEMBER National Safety Council *American Society of Mechanical Engineers * Indian Society for Non-Destructive Testing
Consultancy Services for ISO 9k, 14k, 45k, 50k, 27k SA8000 * Statutory Laisoning * TPI Inspections * PESO * Safety Inspections & audits

ENMAG SYS (A GROUP OF ENMAG) - BRIEF PROFILE

At ENMAG, we firmly believe that the sustainable success of any business hinges upon robust Management Systems spanning Quality, Environment, Health & Safety, Sustainability, Energy, and Social Accountability. Additionally, our services extend to strategic outsourcing for skilled manpower supply, Third-Party Inspection Services, Inspection & Testing, Calibration, Training, and Operational Excellence in Technical Operations. We also assist in navigating legal compliances such as Factory Licenses, PESO License, and Renewal services.

For the past three decades, we have been dedicatedly contributing to the industry with an unwavering commitment to these foundational principles. At ENMAG, we understand the critical role these tenets play in ensuring operational efficiency, regulatory compliance, and overall business resilience. We are driven by the belief that by adhering to these standards and offering comprehensive services, we enable our clients to thrive in a dynamic and competitive business landscape.

We take pride in our team of competent Inspectors, equipped with expertise across various levels including Level II, Level III, and qualified Welders. Our inspectors are adept at handling diverse Third-Party Inspections across Pan India, ensuring meticulous attention to detail and adherence to industry standards.

Moreover, we are distinguished as a firm of Lead Auditors and Lead Tutors for a comprehensive range of ISO certifications including ISO 9001, ISO 14001, ISO 45001, ISO 50001, SA 8000, ISO 27001, ISO 22001, SEDEX, SMETA, and Waste Management, Sustainability, ESG, GMP, among others. Our services also encompass NDT Engineers specializing in Mechanical and Electrical Inspections, Chartered Engineers, Surveyors, Competent persons, and Industrial Safety Consultants.

Furthermore, our credentials extend to approvals under Central and State Government Statutory Regulations, ensuring compliance with Indian Petroleum regulations, Factory Rules, Electricity Rules, Boiler Regulations, Static & Mobile Pressure Vessels (Unfired), Explosive Rules, and Weights & Measures Rules. Additionally, we offer Instrument Calibrations to maintain precision and accuracy in operations.

MISSION: Our mission is to ensure customer satisfaction through high-quality, timely services, fostering continuous interaction, prompt response, and prioritizing safety to maintain the critical assets of our clients. We aim to minimize liabilities and uphold uninterrupted operations in compliance with client requirements and international standards.

VALUES: As a company and as individuals within our organization, we uphold values of integrity, honesty, openness, personal excellence, constructive self-analysis, continual self-improvement, and mutual respect. We embrace significant challenges and take pride in overcoming them with determination and perseverance.

SCOPE OF SERVICES

CONSULTANCY SERVICES

1. We specialize in a comprehensive array of certifications including ISO 9001, ISO 14001, ISO 45001, ISO 50001, ISO 27001, SA 8000, SMETA, SEDEX, CITIPAD, RAP, ESG, Social Impact Audits & Assessment reports , ensuring that our clients meet the highest standards of quality, safety, and sustainability.
2. Our orientation training programs cover a diverse range of topics including Documentation, Personality Development, Leadership, Quality Management, Safety Protocols, Security Measures, and Skills Development, empowering individuals with the necessary tools for professional growth and success.
3. We conduct Supplier Evaluation Audits to assess the performance and capabilities of suppliers, ensuring that they align with our clients' standards and requirements.
4. Our Energy Conservation Audits and Plant Conditional Assessments help identify areas for improvement and optimize energy usage, promoting environmental sustainability and cost efficiency.
5. We offer Warehouse Assessments and Risk Assessments, including Electrical and Thermography evaluations, to identify potential hazards and mitigate risks effectively.
6. Our Fire Safety Audits and Mock Drills are designed to assess fire safety measures and preparedness, ensuring compliance with regulations and enhancing the safety of personnel and assets.
7. Lifting Tools & Tackles Inspection, Testing & Certification are conducted by our competent team in Telangana & AP, guaranteeing the safety and reliability of equipment used in lifting operations.
8. We provide Calibration Services for all Testing & Measuring equipment through our NABL Accredited Lab, ensuring accuracy and reliability in testing processes and measurements.

STATUTORY & REGULATORY SERVICES

1. Legal Compliance & Gap Analysis
(Factory Acts, Legal & Other, Hazardous Waste, Air, Water & PCB)
2. MIDC Approvals
3. FIRE NOC Approvals
4. Directories Of Factories AP & TS Licenses & Renewals
5. MPCB Approvals & Consent Of Renewals
6. Certification of Reactors & Boilers etc.
7. Excise , Molasses Licenses etc.,

THIRD PARTY INSPECTION SERVICES

Handling TPI Services

We have extensive industrial experience in inspections & Audits and worked with several leading companies in the following sectors.

- 1) Power & Renewable Energy
- 2) Oil & Gas (Refining, Storage, Pipeline)
- 3) Process Industries & Infrastructure including ports.

Service Expertise:

- 1) Vendor Inspection
- 2) Pre-Inspection Meetings (PIM)
- 3) Spot Witness Sampling Inspections
- 4) Final Inspections
- 5) Vendor/Shop Audits
- 6) Data documentation reviews.
- 7) Man Day & Man Month Inspections.

Other Mechanical Inspections & Audits as per Statutory & Regulatory Bodies.

- Testing and Certification of Lifting Machines and Pressure Vessels as per Factory Rules.
- Testing and Certification of Static & Mobile Pressure Vessels (U) under SMPV (U) Rules of Dept of Explosives.
- Testing and Certification of Storage Tanks-Class A, B&C under Indian petroleum Rules.
- Safety Audits, On-site Emergency Action plans, Legal Compliance in All Aspects.
- Hazop Study & Hazard Analysis and Risk Assessments.
- NDTs viz. Ultrasonic Flaw Detection, Thickness testing, Fluorescent Magnetic Particle, Pressure Testing & Radiography.

CALIBRATION SERVICES

- Calibration of equipment's & instruments with NABL Accreditations & as per ISO/IEC 17025
- Pressure Gauges, Measuring tapes, Scales, Scale Sensors, Metrology items viz. Vernier Calipers, depth, bore, screw, dial gauges etc.
- Calibration services for all Electrical Equipment such as Multimeter, Lightning arrestor etc.,
- Transformer oil Quality Test, Oil filtration test, Relay , Vacuum breaker, Transformer Relay Testing,
- All SF-6 Breakers, Relay Testing, Earth Pit Resistance Test, Oil Filtration, Transformer oil temperature gauge calibration.,

MECHANICAL SERVICES

- Mechanical Inspection Services
- Mechanical Safety Audits
- NDT Assessment for All Mechanical Structure and Pipe lines.
- Specialized Mechanical Inspection Services like Condition assessment of Pipes, Structure and factories with level II Engineers.
- PAUT Services
- Vendor/Supplier Audits
- NDTs viz. Visual Inspection, Ultrasonic Flaw Detection, Thickness testing, Fluorescent Magnetic Particle, Pressure Testing & Radiography.

ELECTRICAL SERVICES

- Legal Compliance
- Inspection, Testing & certification of All lifting tools & Tackles as per Directories of Factories
- Electrical Safety Audits
- Power Transformer inspection
- Distribution Transformer inspection
- HT/LT Cables inspection and laying and Cable termination and glands and lugs inspection
- Cable tray inspection,
- Earthing inspection
- Electrical Safety tests such as Thermographic Surveys, Relay, Earth continuity, resistance testing, Insulation resistance testing and static charge testing, primary injection testing of Circuit Breakers etc.
- Thermography test
- Calibration services for all Electrical Equipment, Stack Monitoring, Ambient Air Quality etc.,
- Risk Assessment, Environmental Aspect & Impact Assessments
- Fire Safety Assessment
- Erection and Manufacturing inspection

CIVIL & STRUCTURAL SERVICES

1. Design of Civil (Building Stability Assessment) & Structural works for Industries and Residential colonies.
2. Valuation of Plant Buildings Structures, Plant & Machineries and Stocks
3. Structural & Stability certification of concrete buildings & steel structures as per TS & AP Directorate of factories.

TRAINING SERVICES

- Awareness & Internal Auditor Trainings for 9k,14k,45k,27k, SA 8k
- First Aid, Fire & Safety Trainings.
- 5S& 7S, BBS Trainings
- Emergency Plans (off site & Onsite)
- Sustainability, ESG Etc.,
- Security Drills, Mock drills & Induction Videos etc.,
- Trainings on ISO Management Systems, 5S, Safety, Kaizen, 6 Sigma, Lean Management etc.,

PETROLEUM EXPLOSIVES (PESO) SCOPE OF SERVICES:

- Petroleum Licenses for Class A, Class B, Class C Manufacturing, Industrial and Pharmacy
- Petroleum Licenses Barrel storage shed
- PESO License for All gas cylinders and Plants – Like Liquid Oxygen, Liquid Co2, Liquid Organ, Liquid Nitrus Oxide.
- LPG Godown commercial & Domestic – PESO License
- Mixed Gas Cylinder Storage Shed
- Hydrogen Gas cylinder Storage shed
- Flammable toxic vessels License (Ammonia/LPG Tanks)

ENVIRONMENTAL SCOPE OF SERVICES

- Review on Statutory on PCB, Boilers, Directories of Factories, Electrical Approvals
- Environmental Aspect & Impact Assessments and Solid & Hazardous Waste Management Systems
- Water Treatment Systems (RO, UF & NF)., Water & Waste Analysis
- Guidance and Monitoring of Energy, water , paper saving concepts
- Air Stack & Noise, Illumination monitoring
- Green Building Concept
- Guidance on Maintenance & Monitoring of Water treatment plants (ETP & STPs)

INDUSTRIAL SAFETY AREAS:

- Design & Implementation of 3 Tier Safety
- Storage of Raw materials, towards sustaining quality
- On Site & Off-site Training
- Preparation of HARA / HAZOP Reports
- Safety Audit
- Safety Assurance of Men, Machinery, Materials, Methods

MAN POWER SUPPLIERS

- We provide customized deployment of manpower across diverse verticals,
- offering technical and non-technical personnel including experienced/fresh engineers in Mechanical, Electrical, Civil, IT,
- Skilled/unskilled workers,
- HSE professionals,
- Security personnel,
- HR/Admin/Accounts/Technical staff, and
- Housekeeping personnel tailored to meet our clients' specific requirements.

EXPEDITING SERVICES

In today's business landscape, project deadlines are meticulously calculated, leaving minimal buffer time to accommodate delays, particularly those originating from sub-suppliers during production. Prolonged delays not only hinder productivity but also escalate costs, often surpassing the value of the product itself. To circumvent such setbacks, project teams can leverage Enmag Sys' professional expediting services, either integrated with or independent of inspections, spanning all industries.

Enmag Sys boasts a proficient team of personnel adept at facilitating the timely receipt of ordered goods. Our knowledgeable expeditors conduct thorough visits to client and supplier facilities, ensuring strict adherence to established schedules. They meticulously oversee the timely placement of purchase orders for materials and subcontracts, guaranteeing that materials are received and integrated into production as per plan. Moreover, they monitor the progress of manufacturing, testing, assembly, and associated activities to ensure alignment with stipulated delivery dates.

Our overarching objective is to uphold compliance with planned schedules, thereby eliminating the risk of machinery or manpower idling. We extend professional Inspection & Expediting services catering to Mechanical, Electrical, and Instrumentation Products, among others, enabling seamless project execution and timely product delivery.

OUR COMPETENCY & STRENGTHS

ENMAG collaborates with highly qualified professional auditors, surveyors, inspection engineers, trainers, and competent individuals who boast:

- Extensive professional experience and qualifications
- A distinguished team comprising professors and seasoned professionals
- Versatile experience across audits and projects
- Proficiency in project quality assurance/quality control (QA/QC)
- A commitment to prompt and effective communication practices
- Application of case studies and thorough evaluation techniques
- Specialized expertise in providing pipe mill and coating inspection services
- Utilization of knowledge on codes and standards
- Access to NABL-accredited laboratories and certifications from NABL and MoEF

We offer comprehensive independent inspection services to various industrial establishments, including but not limited to Manufacturing, Service, IT, power, process, oil & gas, civil/NHAI road construction, textile, Argo, waste, and renewable energy sectors, catering to projects of varying sizes and engineering spectrums.

While we maintain our own inspection procedures and reporting formats, we are flexible to perform inspections according to client-specified ITP/QAP stages and report formats.

Our procurement assistance team facilitates auditing, evaluation, and assessment of supplier facilities and quality management systems, customized to meet our clients' standards and requirements.

Backed by an extensive network of experienced pipe mill and coating inspection personnel, we ensure the adoption of cutting-edge technologies and specialist training, delivering superior levels of quality service and rapid turnaround of information to our clients.
